

Iowa Army National Guard Child and Youth Program

Program outcomes FY21–FY26 | Prepared by Chris Cox, Lead CYP Coordinator | Data as of September 21, 2026

7,484

TOTAL ATTENDANCE,

FY26

Series high; up 24.9% from
FY25

1,233

CHILDREN AND YOUTH

Up 20.1% from 1,027 in
FY25

51

COMPLETED EVENTS

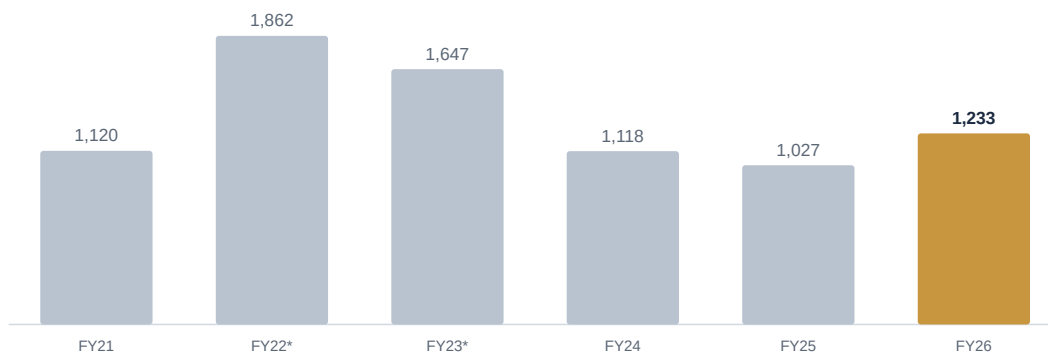

Up from 43 in FY25

311.5

PROGRAM HOURS

Up 29.4%; most since FY22

Children and youth attendance (ages 0–18)

Completed events, all branches. FY26 is year-to-date (fiscal year not yet ended). FY20 is excluded as an atypical year. *FY22 and FY23 were outlier years: SFRS hosted Fall Family Festivals across the state (four in FY22, three in FY23), which greatly increased events and attendance.

What the data shows

- **Record total participation.** FY26 attendance of 7,484 is the highest in the FY21–FY26 series, up from 5,993 in FY25, with 8 more events and 70.7 more program hours.
- **Children and youth attendance is growing.** It rose 20% year over year, above both FY24 and FY25, and resource and referral contacts rose from 571 to 1,464. FY22 and FY23 were outliers because of statewide Fall Family Festivals.
- **One high-reach initiative stands out.** Purple Up Classroom Kits reached 2,640 people in FY26 (2,520 in FY25). Excluding it, FY26 attendance is 4,844 vs. 3,473 in FY25, still up 39.5%.

How I would use these findings

Scale what reaches most

Repeat high-reach formats such as classroom kits and family days.

Grow youth participation

Set targets for children and youth per event, not just total attendance.

Keep what works online

Build publishing around top-performing 2025–26 posts.

Standardize reporting

Define attendance categories and how large distributions are counted.

SUPPORTING DETAIL

Program results by fiscal year

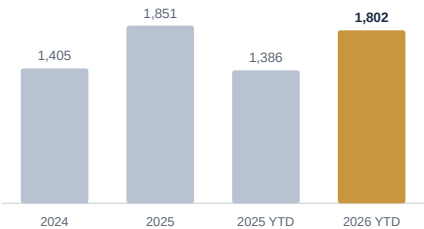

Fiscal year	Events	Children & youth	Total attendance	Program hours	Resources / referrals
FY21	42	1,120	3,303	276.5	1,755
FY22*	51	1,862	5,369	367.0	1,197
FY23*	41	1,647	3,896	243.0	1,473
FY24	36	1,118	2,065	273.2	550
FY25	43	1,027	5,993	240.8	571
FY26**	51	1,233	7,484	311.5	1,464

*FY22 and FY23 were outlier years: SFRS hosted Fall Family Festivals across the state (four in FY22, three in FY23), which greatly increased events and attendance. FY20 excluded as an atypical year. **FY26 through September 21, 2026. Completed events only. Children and youth = ages 0–18, all branches. Total attendance includes adults and the “Other” category.

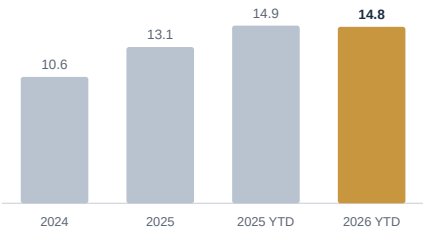

Calendar year to date (Jan 1 to Sep 21) vs. the same period in 2025: 42 events vs. 31 (+35.5%), 6,416 participants vs. 4,715 (+36.1%), and 293.5 program hours vs. 224.75 (+30.6%). The table above uses fiscal years (Oct to Sep), so figures differ by period, not by source.

Digital communication: Facebook

Total engagement per year

Engagement per post

2024 and 2025 are full years; YTD covers Jan 1 to mid-September each year. Against the same period in 2025, engagement is up 30.0% and posts are up 31.2%, while engagement per post is flat (14.9 vs. 14.8). The step-up from 10.6 to 13.1 came in 2025. Followers grew from 1,693 (end of 2024) to 1,834 (September 2026).

Program website (moved from WordPress in Nov 2025), January 1 to September 20, 2026

1,970 SESSIONS 1,451 new users	207 SESSIONS FROM FACEBOOK Organic social: 211	454 EVENT DETAIL VIEWS Across 36 events	122 REGISTRATION PAGE VIEWS Across 17 events
---	--	--	--

Growth on the new site: daily active users averaged 9.8 from January 1 to April 22 and 18.3 from September 1 to 20, up 88%. Tracking lapsed from late April to August 30 and has been repaired, so those months are excluded from the comparison.

Data notes

Source: Iowa CYP event export (Supabase), September 21, 2026; 264 completed events across FY21–FY26. Facebook figures come from Meta Graph API page snapshots; historical views are not comparable across years and follower values before 2024 are not measured history. Program figures come from the same event export for both views. Website figures are from Google Analytics 4 exports for January 1 to September 20; the site moved from WordPress in November 2025 and the old site’s analytics are not included, so no year-over-year website comparison is shown. September may also reflect fall seasonality and event promotion. Page and session counts include some staff and test traffic. Two large distributions (Purple Up Classroom Kits, 2,520 in FY25 and 2,640 in FY26) are counted in “Other” and are shown as recorded. Findings describe observed change and do not establish causation.
